This summer was again a busy time for our Premises Team who worked very hard to deliver a large number of improvements to the School before it reopened at the beginning of September. Here are some of the highlights:

PROJECTS

- Redesign and refurbishment of the Music Department with state of the art classrooms including an IMac suite, five purpose built practice rooms, a mixing desk and new keyboards and equipment throughout
- Girls toilets have been replaced and extensively upgraded with all new units, centralised washbasin, air blade hand dryers and a dedicated air circulation and temperature control
- Downstairs Science Office has been extensively refurbished
- Chemistry prep room has also been extensively refurbished
- Additional fencing has been added to Dryden Avenue playground to provide goals, wickets and safe area for spectators
- Grills removed from all classrooms around Dryden Avenue
- Additional fencing has been placed behind SMS, FM and C Building
- CCTV onsite has been upgraded
- Fire alarm has been replaced and improved
- Lesson change over sounder has been upgraded

As well as all of these projects there has also been significant maintenance carried out of the site during the summer

- Roofing repairs to various areas of the school
- Water mains repairs
- Annual deep clean of the school and catering facilities
- £15,000 worth of electrical repairs and upgrades
- Railings at the front of the school have been stripped and repainted
- Access control system has been upgraded
- Every single corridor, classroom and area of the school has been painted
- All vinyl floors have been machine cleaned
- Maintenance at the school field including rota-spiking, feeding and installation of CCTV to aid security
